

Cyberlogic announces its new service: [e-Tourism Cloud for Travel companies](#). This service includes the usage of Cyberlogic's e-Tourism Suite system for Online Reservations and Distribution over the Internet.

Travel businesses could now pay a rent (**330 euros + VAT**) that includes all required services for the full operation of the system, utilizing a modern Website for Online Bookings and B2B Travel distribution.

This service extends the existing product range of Cyberlogic: e-Tourism Operations & e-Tourism Suite.

Detailed information about this new service is available at the new microsite of Cyberlogic: www.TravelSoftware.gr, addressed exclusively to travel companies.
