We revolutionize the travel supply chain with cutting edge technology!

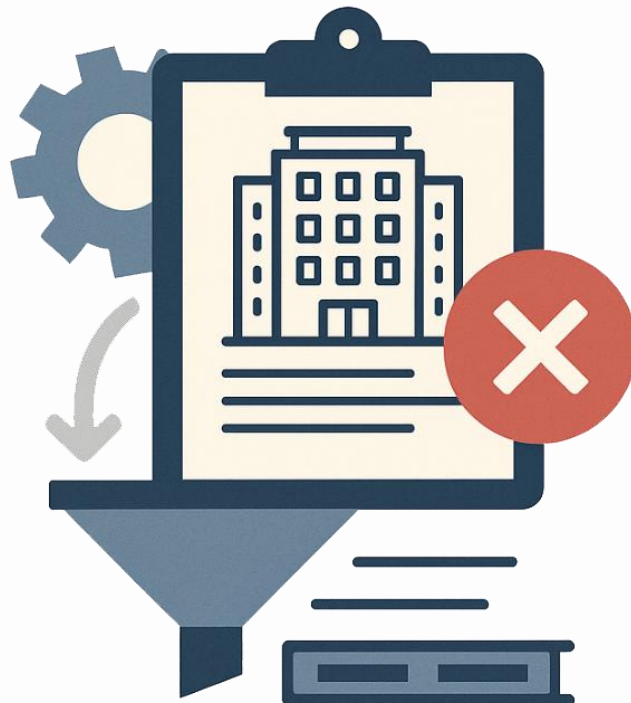

- Established in 2006 in Crete
- 5 ISO Certifications
- Awarded Best Workplace

Hotel Inventory Challenges

- Operators still rely on Excel and manual processes
- Complex business rules varying by destination
- Onboarding is slow and inconsistent
- High operational costs and low time-to-market
- Lost bookings & revenue from inaccurate or poorly managed supply

Innovation is needed here!

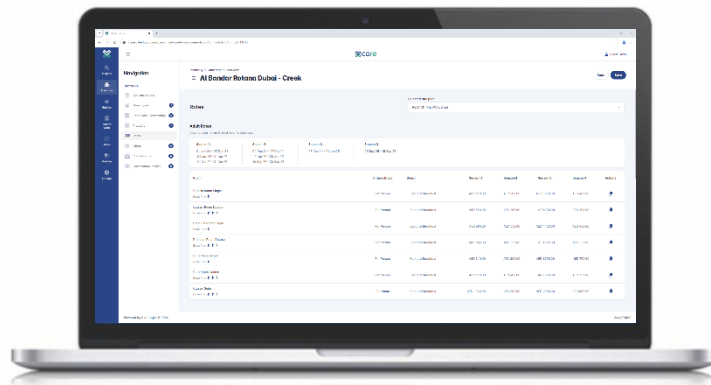

Inventory Management
Supports Static & Dynamic

User-Friendly
Simple & Intuitive interface

Scalable & Efficient
Scales up with your company

Minimize Time2Market
Always ahead of your competitors

Easy Integration
with core systems

Reservations Fulfillment
to suppliers seamlessly

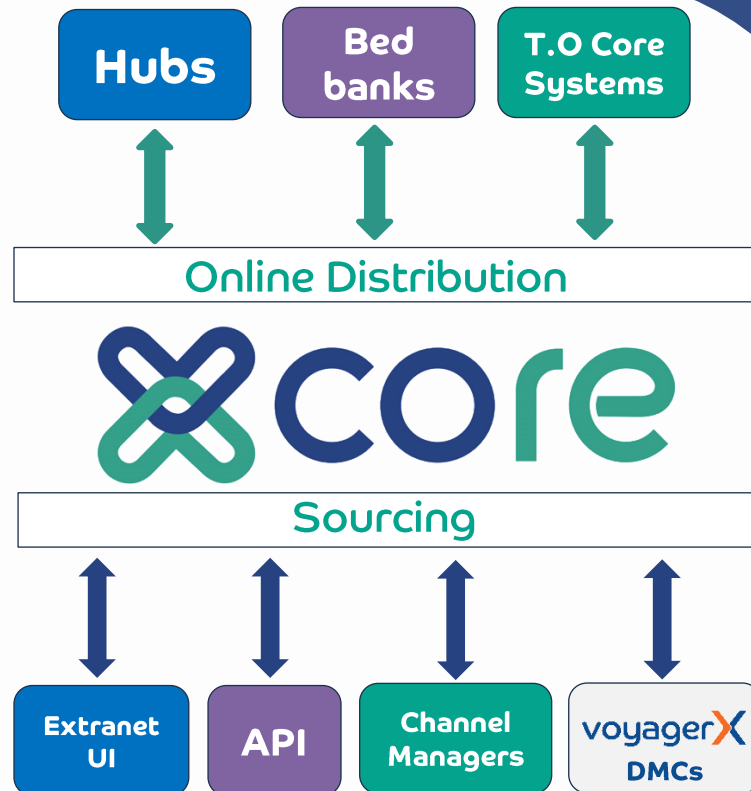

Sourcing & Online Distribution

Source inventory from:

- User friendly UI to load directly
- Supplier API for 3rd party systems
- Channel Managers
- VoyagerX DMC platform

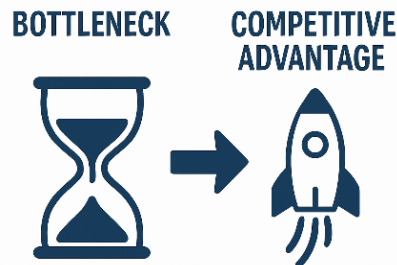

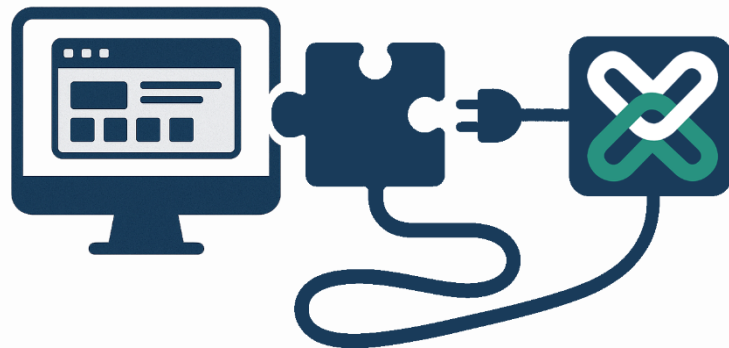

Distribute inventory to:

- Tour Operator Systems (WBS Blank, NextOS, xRes)
- Hubs (Peakwork, Traso, TravelgateX, Juniper)
- Bedbanks (Lastminute.com, Jumbo, Emerging Group)

- Faster supplier onboarding
- Lower support and operating costs
- Scales your supply side instantly
- Plug-and-play — zero disruption, no risk
- Keep the core systems intact
- Valuable for operators who own DMCs or work with DMC partners worldwide

In short: xCoRe turns hotel inventory from a bottleneck into a competitive advantage

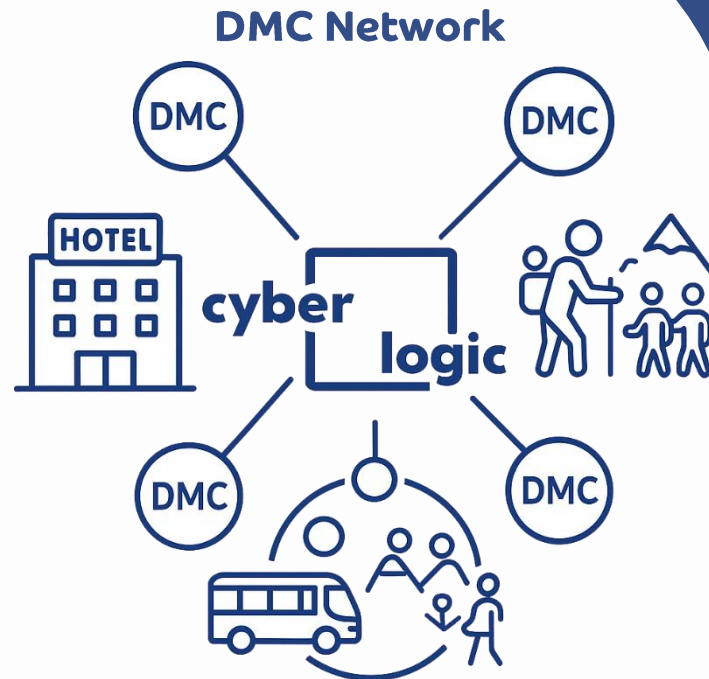

➤ Cyberlogic's global DMC network gives you access to competitive hotel product and on-the-ground support, transfers and local activities

➤ This is how hotel inventory evolves into a complete destination product

➤ From rooms to full journeys.

Thank you!
